International Network Models of Crises

Our networking activities are based on Specific Objective 7: To establish scientific cooperation networks with research centers that reinforce interdisciplinary collaboration in academic production and the universality of the cases analyzed.

Department of Sociology, Faculty of Behavioral and Social Sciences, University of Groningen, Holland – Prof. Andreas Flache

Department of Business and Politics at Copenhagen Business School, Denmark – Prof. Poul Kjaer

Department of Communication, University of California, Davis, USA – Prof. Martin Hilbert

Department of Social Sciences at Loughborough University, UK – Prof. Daniel Chernilo

Centre d’Analyse et de Mathématique Sociales, École des Hautes Études en Sciences Sociales, Paris France – Prof. Jean-Pierre Nadal

Center of Studies in Economy and Culture, Faculty of Economic Sciences, Catholic University of Argentina – Prof. Carlos Hoevel

Brazilian Association of Researchers in Sociology of Law, Brazil – Prof. Artur Stanford
Papers published with the Network (2016-2017) and work in progress

Published

Work in progress

• Salgado, Mascareño, Ruz, Nadal. Models of Crises Propagation.

• Rossello, Cordero, Kjaer, Chernilo, Mascareño. Models of Crises.
Network exchange

• Artur Stamford (Brazil) conducted a research stay in Chile between September and November 2015.

• Aldo Mascareño taught an intensive seminar for graduate students in ABraSD (Fortaleza, Brazil) organized by Artur Stamford in June 2016.

• Daniel Chernilo visited Chile in September 2016 for the First Colloquium Models of Crises

• Aldo Mascareño held, in June 2016, the conference ‘Crisis in complex social systems’ at the Graduate School in History and Sociology, Bielefeld, Germany, organized by Prof. Alfons Bora.

• Martin Hilbert visited Chile in October 2016 for the Second Colloquium Models of Crises.

• Eric Goles visited UC Davis (Hilbert) in December 2016 for a presentation at UC Davis.

• Aldo Mascareño visited Andreas Flache in September 2016 for presenting the work at the Center Millennium Nucleus Models of Crises.

• Andreas Flache visited Chile in October 2016 for the Third Colloquium Models of Crises.

• Carlos Hoevel visited Chile in June 2016 for a seminar at the PhD Program Processes and Political Institutions (Universidad Adolfo Ibáñez)

• Poul Kjaer and Carlos Hoevel visited Chile in January and April 2017 for the Fourth and Fifth Colloquium Models of Crises.

• Jean-Pierre Nadal visited Chile in October 2015 invited to the First Spring School Models of Crises.
Colloquium Models of Crises

The Colloquium Models of Crises is a program of scientific presentations related to the research lines of the Center. Between 15 and 20 students and 10 colleagues regularly attend to the Colloquium. Purposes of the Colloquium are as follows:

**General purpose**
To discuss the notion of crisis in contemporary world society from an interdisciplinary perspective (sociology, economics, history, philosophy, complexity sciences).

**Specific purposes**
- To identify different dimensions and approaches to the concept of crisis in contemporary scientific and humanist analyses.
- To outline the interdisciplinary basis for a theory of crisis in complex social systems.
- To construct a platform to expand and consolidate the research networks of the Millennium Nucleus Models of Crises.
Colloquium Models of Crises with network participation

September 2016, Daniel Chernilo (Loughborough, UK): The question of the human in the Anthropocene debate.

October 2016, Martin Hilbert (UC Davis, USA): Big data: theory, potential, and limitations.

October 2016, Andreas Flache (University of Groningen, Holland): Social integration and diversity. Connecting models and big data analysis.

March 2017, Andrea Silva (Universität Giessen, Germany): Ethnicized citizenship as illegitimate citizenship.

April 2017, Carlos Hoevel (Universidad Católica Argentina): Entropic crisis and meaning in history.

December 2017, Lionel Lewkow (Gino Germani Institute, UBA, Buenos Aires): Luhmann and Husserl.
Network of Educational and Outreach Institutions

The aim of this network is to expand the outreach toward students and audiences beyond the host institution.

**Master Program System Analysis Applied to Society, Universidad de Chile**
Collaboration: Spring Schools and theses tutorials

**Institute of Complex Systems, Valparaíso**
Collaboration: Spring Schools and colloquiums

**Explora Conicyt, Valparaíso**
Collaboration: organization of outreach activities, presentation of books

**Cultural Center Matucana 100, Santiago**
Collaboration: organization of Laboratory Art & Crises and presentation of books

**ReCrea Editorial Services, Santiago**
Collaboration: organization of Laboratory Art & Crises, editing of books
